ABOUT US

Thetford International is a leading UK manufacturer and supplier of high-quality waste compaction and recycling equipment. With over four decades of industry experience, the company designs and manufactures robust, reliable, and customised waste management solutions to meet the needs of businesses across a wide range of industries.

WASTE COMPACTOR

A heavy-duty industrial waste compactor designed for efficient commercial and industrial waste handling. The robust system helps compress large volumes of waste, reducing storage requirements, collection frequency, transportation costs, and landfill usage. Thetford International manufactures a range of durable waste compaction solutions tailored to different site and operational requirements.

Waste Compactor with Bin Lifting System

A high-capacity waste compaction system featuring an integrated bin lifting and loading mechanism for efficient waste handling. Designed for demanding commercial and industrial environments, the equipment helps streamline waste loading, improve operational efficiency, and reduce the volume of waste before disposal. Thetford International offers bespoke compactor systems designed to meet individual customer and site requirements.
